wooden train set	X	$6 =		X	$ 4 =								

Total of column 5 = _____ **Total of column 6 =** _____ **Total of column 7 =** _____ **Total of column 8 =** _____

HELPFUL TIPS

* Use tally marks when you have more than one item in a particular category.
* Use a different worksheet for each donation.
* If using the same worksheet for multiple donations, designate a different color of ink for each donation.
* Make sure you are donating to an IRS qualified organization. Contributions to individuals are not deductible
* Take a photo of the goods donated, especially for items worth more than $250.
* Keep track of mileage to/from delivering your items to the charity. The IRS deduction is 14 cents per mile.

Total Column 5 = _____
Total Column 6 = _____
Total Column 7 = _____
Total Column 8 = _____
Total This Page _____

This worksheet is intended to be a tool to help you tally your donated items. The values listed on the worksheet are estimates based on information provided from various internet sources (such as itsdeductible.com and www.salvationarmyusa.org). These values are presented only as general guidelines. A charitable deduction for noncash items typically is the FMV of the goods donated. It is your responsibility to document the FMV of each item donated. This amount is usually much less than the original cost of the items and dependent upon the condition and usefulness of the items donated. See Publication 561, Determining the Value of Donated Property, for more information. If you feel that the values are not representative of the items you are donating, please feel free to change the amounts.
